

8. Provide cultural, topical, and educational programming for adults and families.

BCPL is a factor in the quality of life available to the residents and visitors of Matagorda County. The programming is designed to meet educational and recreational needs of the community.

Free art programs are a priority for the library. Each month, the library hosts a Bad Art Night for adults to gain art skills in a relaxed environment. These classes are typically led by a local artist in which various techniques are taught. During summer, the library hosts a week-long art camp. This year, the Art Camp classes focused on drawing fundamentals, including perspective, still life, light and shadow, and texture. At the end of the camp, a special exhibit was held to showcase the students' progress and achievements.

The library hosts fun family activities, such as Harry Potter Book Night, to encourage family togetherness while enjoying a book themed event.

The library offers a Genealogy Collection. This year, one of the staff members recognized that patrons struggled with use of the collection. He reorganized the books into boxes so that they were easy to locate in the catalog and on the shelf.
