

1. Provide services to underserved populations either through outreach, special programs, collaborations with other libraries or organizations, special classes, special collections, etc.

Bay City Public Library offer regulars programming and collections for multiple underserved populations in the community.

BCPL offers Creative Aging, a monthly art program for seniors and adults with disabilities.

Teen participation continues to grow in both the weekly program and in computer use. The library serves as the sole location for teen programming in the community outside of school, sports, and churches.

BCPL has a small Braille collection in the Youth Room.

During Hurricane Beryl, both branches of the library stepped up to help with cooling centers in the community. Our Sargent Branch was one of the few places with power and internet after the storm.
