

10. Include any other programs and/or services that evidence library excellence.

BCPL continues to be an active member of the community by hosting outreach services and participating in local committees that promote literacy, education, and culture.

The Library Director also serves on the Education Improvement Council for Bay City ISD.

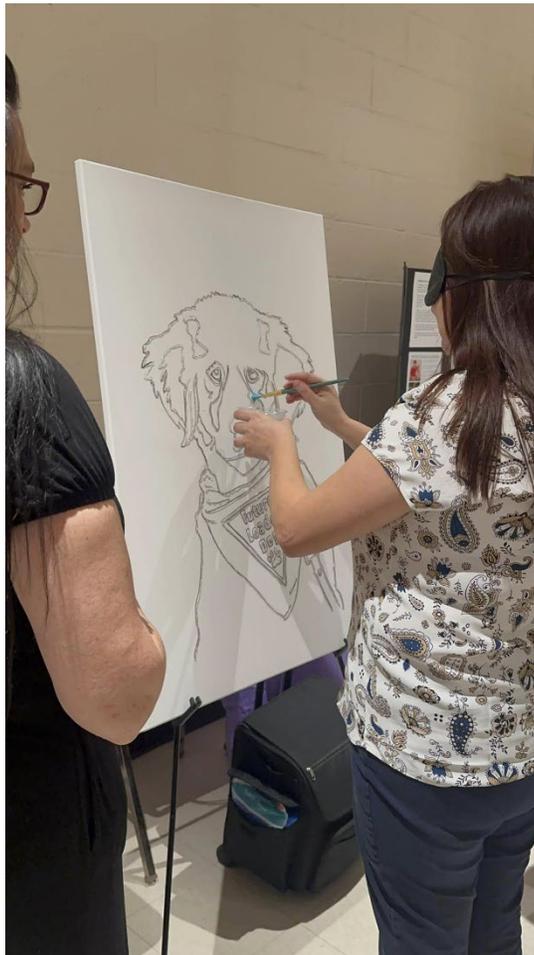

BCPL hosted a booth at multiple events sharing information about services and programs available at the library.

The library has started offering monthly Virtual StickTogether Puzzles, monthly scavenger hunts, and culturally significant book displays are updated regularly, rotating based on the time of year to highlight relevant themes and celebrate diverse traditions in an effort to engage community members.

Outreach at one of our local Lions Meetings featured a unique activity where a BCPL staff member created a sensory canvas and invited participants to paint blindfolded. This hands-on experience aimed to help participants gain a deeper understanding of living with limited eyesight.
